A SAFE AND SECURE WAY
TO MANAGE AND INTEGRATE
YOUR STUDENTS' DATA

School Portal provided by **Strawbridge**

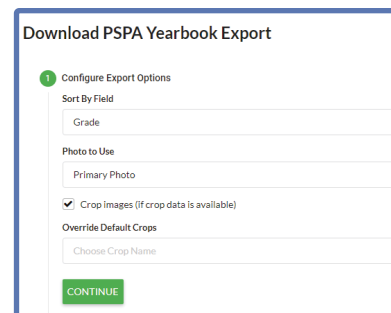

Manage Student Information

With School Portal, you will be able to access your school images faster and easier than ever. School Portal allows you to update and modify data to complete your records before running any exports.

Download Exports

On the School Portal website, you will be able to access a variety of standard exports for your school databases. You will also have the ability to create custom exports for special projects.

Print Items

School Portal allows school administrators to print their own ID Cards, Student Directories and Award Certificates. This can be a huge time saver for the staff at your school.

All In One Place

Software Support

When using School Portal through Strawbridge, you will be given easy access to a representative that can answer any questions you may have about the software in both English and Spanish.

Contact SchoolPortalSupport@strawbridge.net
with any questions about the software!
